

NADIL SAVANJITH

Software Engineering Undergraduate

Kadawatha, Srilanka
+94 70 104 3234
nadilsavanjitham@gmail.com

I am a dedicated Software Engineering undergraduate with practical experience in developing real-world applications during my internship. I am recognized for my strong work ethic, adaptability, and ability to work effectively in a team environment. I am motivated to continuously learn and improve, and I am seeking an opportunity to gain industry experience, contribute to meaningful projects, and grow into a well-rounded software engineer.

PROFILES

 [Portfolio/NadilSavanjith](#)  [LinkedIn/NadilSavanjith](#)  [GitHub/NadilSavanjith](#)

WORK EXPERIENCE

Software Engineering Intern
HardCodeX (PVT) Ltd

August 2025 – March 2026

- Worked on frontend development, focusing on UI/UX design and implementation
- Built and enhanced responsive user interfaces for web applications
- Collaborated with developers to deliver project requirements efficiently
- Maintained a high level of dedication, adaptability, and teamwork in a professional environment

EDUCATION

BEng (Hons) in Software Engineering (2024 September - Present)
University of Westminster (Informatics Institute of Technology)

Currently in Level 5

Level 4

- Computer System Fundamentals
- Web Design and Development
- Software Development II
- Software Development I
- Mathematics for Computing
- Trends in Computer Science

Level 5

- Object Oriented Programming
- Software Engineering Principles and Practices
- Database Systems
- Software Development Group Project
- Algorithms: Theory, Design and Implementation
- Machine Learning

Foundation Certificate In Higher Education (2023 September - 2024 April)
Informatics Institute of Technology

Successfully passed the Foundation Programme in Higher Education

Foundation Certificate In Software Engineering (2023 March - 2023 August)
National Institute of Business Management (NIBM)

Passed With Grade A

G.C.E. Ordinary Level (2022(2021))
Gurukula College Kelaniya

Successfully passed GCE Ordinary Level (O/L) Examination in 2021

SKILLS

TECHNICAL SKILLS

- Programming Languages: - Python, Java, JavaScript, HTML5, CSS3
- Frameworks & Libraries: - React
- Other Technologies: - Node.js, Wordpress
- Database Systems: - MySQL
- Development Tools & IDEs: - VS Code, CMD, Thonny, IntelliJ IDEA, Eclipse, Figma
- Version Control: - Git and GitHub
- Operating Systems: - Windows, macOS

SOFT SKILLS

- Self Learning
- Team Leadership
- Problem Solving
- Time Management
- Decision Making
- Creativity

PROJECTS

1. Smart Highway Toll Automation System named EzToll (In Development)

Technologies Used: Flutter | Node.js | MongoDB | OpenCV | React

EzToll is a smart toll automation system designed to reduce highway congestion through automated vehicle identification and seamless digital toll collection. Developed vehicle entry and exit tracking mechanisms to ensure accurate toll fee calculation. Built an admin dashboard to monitor vehicle records and system activity. Also implemented an IoT-based prototype for automated number plate recognition and barrier gate control. ([GitHub/EzToll](#)).

2. Smart Event Management System named Eventra

Technologies Used: Ballerina | React

Eventra is a smart event management system with a RESTful backend supporting full CRUD operations. Implemented secure authentication with role-based access (admin/user). Integrated backend APIs with a React frontend, configuring CORS and HTTP services for smooth and secure communication. ([GitHub/Eventra](#))

3. Website for Life Below Water named Oceara

Technologies Used: HTML | CSS | JavaScript

Oceara is a responsive website developed based on the “Life Below Water” Sustainable Development Goal. Designed and implemented interactive web pages to raise awareness about marine conservation. Presented key data on ocean pollution, biodiversity, and conservation efforts while ensuring a clean and user-friendly UI/UX. ([GitHub/Oceara](#))

4. Construction Project Management Prototype named FutureSite

Technologies Used: Figma

FutureSite is a UI/UX prototype for a construction project management system. Designed user-centered interfaces focusing on usability and workflow efficiency. This project was selected for the “Cutting Edge 2024” industry showcase at the Informatics Institute of Technology.

CERTIFICATES

1. Java Application Development using JavaSE – University of Colombo (June 2024 – November 2024)
2. Innovate with Ballerina Coding Challenge – University of Moratuwa (in collaboration with WSO2) (October 2025)
3. Certificate in Graphic Designing (Grade A) – University of Kelaniya (June 2022 – August 2022)
